## BOWLING.

Last evening on the Hagyest Home alleys, South Side, the championship season of the South Side Bowling League, opened quite auspictously with three games between the Mail Pouch and Aurora teams. The disciples of "acrap" were decided favorites before the battle of the pins began, but the Aurora boys played a stiff game, notwithstanling the coaching of the large word of enthusiasts present, who seemful of the coaching of the large word of enthusiasts present, who seemful can be alleged and so "rattles," and won the first and third games. The second game was wor by Mail Pouch on a very narrow margin, three. The tenth frame found the two teams almost, on a level and a desperate contest ensued, but Mail Pouch maintained their slender had and thus left the alleys with one fame to their credit. The score:

The Wheeling Tigers will put out bills to day, advertising their game with the Western University of Pennsylvania on Thenhesiving day, at the Island hall park. The game will be a good one and well worth seeing. The Y. M. C. A. eleven practice at the Bridge park every afteenoon, and more interest is taken by the boys since their game with Altenheim, and the future glory that hangs temptingly over the proposed game with Bethrany college next Saturday. The Sistersville game for Thanksgiving is a settled fact, and success for this event seems certain it constant practice in team work is kept up. The Tigers line up against the team occasionally and the experience thus gained is bound to prove of benefit. Two players are proposed for the Y. M. C. A., which if secured will further strengthen their line. They are Prof. G. M. Ford, a "sub" on W. V. U.'s '94 teams. Both are good players and are now located in Bonwood. The Y. M. C. A. before the season is finished promises to give a good account of itself.

The Ritchie foot ball eleven is an aggregation of boys in the Eighth ward, most of them being schoolboys, and averaging 130 pounds in weight. They play a good rame and are very anxious of meeting an eleven of equal weight. A Thankgalving game is especially desired. What's the matter with the Linsiy students? Surely they can scrape up a team to give the Ritchies a good tussle. The Cadets have a splendid chance of asserting their athletic superiority by organizing and accepting the challenge. The Electric Road.

Work on the electric road has been moving slowly for the past few days. Almost the entire construction force laid down their tools Monday morning for the reason as they said, they had not received their pay for two weeks. After an hour or less delay they were at work again and it is understood that they got a promise that they would be paid this week. The fault seems to be with the contractors and not with the receiver of the road. It seems that the complete the work and have "The Narrows" taken off their hands by the county commissioners and the street paying in the city accepted by town council before the receiver will pay for the work done.—Moundsvilie Dally Echo.
